

Plain Language Summary of Financial Assistance Policy

Select Specialty Hospital San Diego provides financial assistance for medically necessary care to patients who are unable to pay. The following is a summary of financial assistance available at Select Specialty Hospital San Diego.

Financial Assistance Offered. If you do not have insurance, we provide financial assistance for medically necessary care. Eligible care includes medically necessary services as defined by Medicare (services or items reasonable and necessary for the diagnosis or treatment of illness or injury).

To receive financial assistance, you must meet one of the following criteria: (a) are a U.S. Citizen; or (b) carry a United States Permanent Resident Card (USCIS Form I-551); or (c) live within 50 miles of the facility.

You will receive free care, or 100% write off of patient liability after insurance has paid, if your family income does not exceed 200% of the Federal Poverty Income Guidelines. Write off of the discounted financial assistance amount which is calculated as a percentage of total gross charges may also be available for uninsured and certain other patients with family income up to 400% of the Federal Poverty Income Guidelines. If family income is over 400% of Federal Poverty Income Guidelines, financial assistance may still be considered. All applicants will be screened for Medicaid coverage and must cooperate with the Medicaid representatives to be considered for financial assistance.

Additional Ways to Qualify. If you do not meet the income criteria above, regardless of your insurance status, you will be considered on a case-by-case basis for financial assistance. Contact us to discuss exceptional personal or financial circumstances, or if there are special medical circumstances where treatment can only be provided by Select Specialty Hospital San Diego medical staff.

What You Will Be Charged. If you receive financial assistance under our Policy, you will not be charged more for medically necessary care than the amount we generally bill patients having Medicare coverage.
